

What is windows Aero

Windows Aero features glass-like windows for an open look

Snap

- * **Snap** allows you to resize open windows to make reviewing and comparing easier.

peek

Simply scroll the mouse over the taskbar icons, and a thumbnail preview of the open windows will appear.

peek

- * Point to the **Show desktop** button at the end of the taskbar. The open windows fade from view, revealing the desktop (windows + space)

shake

- * Just click the top of a pane and give your mouse a shake. , Jiggle again—and your windows are back.

flip

- * Pointing to a window's taskbar button displays a preview of the window (alt + tab)

Flip 3D

* Windows + tab
